12	LARGE JOINER 19MM DOOR UPRIGHT TUBE CLIP
4	LARGE JOINER (CORNER)
2	LARGE JOINER (FLAT TEE)

1	COVER
24	BLACK HOOP CLIPS 19MM
26	U PINS

## ASSEMBLY PROCESS BASE

**STEP 1:** Take 6 of the 1.5m length bars, and 2 of the 1.2m width bars and lay them out into a rectangle.

**STEP 2:** Connect the 4 joiner corners on the corners, and 4 tees in the middle.

**STEP 3:** Place the hoops on top of the joiners and push in.

## ASSEMBLY PROCESS CLOCHE SUPPORT BAR

**STEP 1:** Insert 12x joiner upright tube clips to the remaining 1.5m tubes at both ends.

**STEP 2:** Clip 2x support bars in between each hoop.

**STEP 3:** Use pipe clips provided to secure your netting to the tubing.

For a tight fit apply some pressure when fitting the clips and joiners into the aluminium. A mallet is usually required.

Please note: If due heavy forecast of snow please remove cover before hand.
