

SQUARE ALUMINIUM HOOP TUNNEL KIT (W) 1.15M X (L) 5M

CONTENTS

6	ALUMINIUM HOOPS
1	COVER
36	PIPE CLIPS
24	STEEL PEGS

ASSEMBLY PROCESS

STEP1: Select your starting point in your garden and insert the first hoop into the soil. Once inserted space out the next hoop, we recommend spacing around 1 metre apart. Repeat this process until all hoops are completed.

STEP2: To attach the netting, lay over the top of the hoops leaving an equal overhang at both ends, enough to secure to the soil with the steel pegs. Use the pipe clips to fasten the netting to the hoops.

Please be aware the clips are a tight fit and require some applied pressure to fit in place. We recommend 6 clips per hoop, space evenly around the hoop making sure there is one either side at the base.

(Please Note: If due heavy forecast of snow please remove netting beforehand).
