gardening-naturally

OWN BRANDING AT NO EXTRA COST

gardening-naturally

Contents

The Gardening Naturally range of over 150 natural and organic garden products proved a big hit with the trade industry.

Garden centres and mail order companies love the beautifully simplistic packaging, which uses a white background with a different vibrant colour for each product. All the products use a combination of recycled, recyclable and minimal packaging.

As the digital world evolves and customers have price comparison at their fingertips, every year gets more difficult to compete and own branding is one way to combat this. Gardening Naturally can offer nearly the whole range in own branding with no minimum order.

All products are natural and safe to use around children, pets and wildlife. With excellent customer service coupled with quality, fast delivery, reliability, and value for money, Gardening Naturally is the prime choice for all your natural products.

• Excellent margins – 50% on most popular lines

• Just in time delivery available as all products are stocked in our UK warehouse

• Dedicated account management, pro-active range review for each season

• All products available in the Gardening Naturally brand if you prefer

We would like to take this opportunity to thank you for your support and wish you a successful 2023.

Aluminium Tubes & Joiners For Garden Cages

Build Your Own Fruit Or Vegetable Cage

New

Our new build your own fruit or vegetable cage stand offers your customers the flexibility to make their own garden frame. Tubes can easily be cut to size if they can't make their exact sized frame and the joiners allow them to make frames as long and wide as they require. All tubes and joiners individually barcoded.

Aluminium Stand comes free of charge when you order an outer of each of the below to fill your stand. (Minor assembly required).
