Please Note: Products may differ slightly from the published photograph. All products and prices are correct at the time of printing but may be subject to change. Customers will be notified of any changes when ordering.

All sizes and specs quoted are approx only. Whilst we endeavour to deliver your order on time and in perfect condition, we recommend that no arrangements for installation involving third-party contractors are made until you're goods have been received and checked.

Where the Union Jack appears, these products are all manufactured in the UK.

Returns
You can return items for a refund within 30 days. The goods must be in perfect condition and in their original packaging.

Please ensure you enclose your name and address, account number and reason for return. Please note that nematodes and biological controls are non-returnable.

Thank you

Garden Netting

Black Bird Netting

High quality, heavy-duty netting that will keep out birds and garden pests from your fruit and vegetables without causing them harm.

The 20mm x 20mm diamond mesh will deter birds but will still allow the bees through to pollinate.

Made from high-density UV stabilised polyethylene, our bird netting is soft to the touch, tangle free, and can be laid directly over crops, cages or hoops. Approx weight 37gr/m². UV stabilised polyethylene.

Allows the bees in for pollination

Green Bird Netting

Heavy-duty 19mm x 19mm diamond netting will stop birds without harming them. It can be laid directly over crops, hoops or cages.

Suitable for both fruit & veg, it is of high quality and you will not get tangled up in it. Allows bees through for pollination. This netting will last 5-10 years. Approx weight 35gr/m². UV stabilised polyethylene.

Eco Ultrafine Netting

Our new Eco Ultrafine Veggiemesh is one of the first biodegradable garden nettings in the UK. Can be left outdoors and has a minimum lifespan of 3 years. After this it will start to break down into carbon dioxide and water. Designed to keep out the smallest of pests including whitefly, flea beetle and some smaller aphids. Made from corn starch. Fully compostable. Mesh size 0.85mm x 0.85mm.

EUF2110	2.1 x 10	£50.99
EUF2120	2.1 x 20	£97.99

Windbreak & Shade Netting

Windbreak & shade netting reduces the physical and drying affects of the wind whilst providing 40% shade. Use all year round to protect plants and seedlings from sun and wind damage. Can also be used as privacy fencing.

To create a fence we would recommend stapling the netting to wooden posts. Can be used inside or outside for greenhouse shading. HDPE UV stabilised. Weight 135g/m². Green.

Deer Netting

Protect your garden from deer by creating fences with this 50mm x 50mm heavy duty netting. Quick & easy to install.

Made from extruded plastic. UV stabilised with a high tensile strength. **Will last 8 - 10 years with care.** Approx weight - 75gms/m² black.

Code	Size in M	Price

Poultry/Fruit Cage Netting

A slightly stiff but flexible heavy-duty netting ideal for poultry cages, fruit cages and other garden uses.

The 17mm x 17mm mesh deters birds whilst allowing bees through for pollination. We use this on the sides of our walk-in fruit cages with black bird netting on the roof. Black.

Black & Green Soft Butterfly Netting

Our soft butterfly netting will protect crops from birds & cabbage white butterflies.

This netting feels more like a soft fabric to touch and has a mesh size of 5mm x 7mm. Light and soft enough to lay over the crop, hoops or cages.

It is also ideal for protecting ponds from debris and any unwanted intruders. You can water and feed through the netting. Approx weight - 35gms/m². This netting will last 5-10 years. HDPE UV stabilised.

Veggiemesh® Insect Netting

Enjoy clean crops free from insect damage with our Veggiemesh® insect netting. Simply cover any fruit or vegetable crop to stop a huge variety of pests including insects, rabbits and birds. It also provides protection against heavy rain, wind and mild frosts.

Just lay the Veggiemesh® over the plants or seeds immediately after planting and peg down, leaving enough slack for the crops to grow.

Everything will grow a little bit bigger when covered, so allow for this when ordering. It also works very well if laid over hoops and cages.

Made from UV stabilised white/clear polyethylene to ensure the plants get all the light they need to grow. Designed so that you can water and feed through the netting saving time and effort. Any crop can be covered, if it needs pollination remove netting when in flower.

Keeps out: Birds, butterflies, caterpillars, deer, carrot fly, cabbage white butterfly, pea moth, cutworm, leek moth, leaf miners, and many species of aphids.

With care Veggiemesh® will last for 10 years.
Approx weight 55gms/m².
Light Passage 90%.
Air Passage 95%.
Made from UV stabilised polyethylene.
Colour - White.

Carrot Netting

Create a barrier against carrot root fly with our 1m high/wide carrot netting.

This netting has even smaller holes (0.27mm x 0.88mm) than our ultra-fine netting, helping to suppress and contain the aroma which attracts the fly.

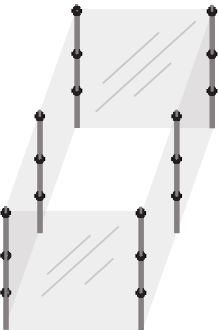

Carrot Fence Netting & Kits

Carrot flies cannot fly high enough to get to your carrots, parsnips or celery with our 1m high barrier carrot netting.

The barrier will also deter rabbits and rodents whilst providing protection from the wind. You can also buy per running metre and use our 16mm poles on page 23 to create your own kits.

Kit Contents:
Veggiemesh
16mm aluminium tubing
Carrot netting clips

Thermacrop Long Lasting Garden Fleece Alternative

A stronger, easy to handle, long lasting garden fleece alternative. Thermacrop works just like our garden fleece but has a life expectancy of 5 years. Made from woven strips of a very soft polyethylene.

Water, light and air can pass through the fleece. Protects down to -2/3°C. Colour - White.

Polythene

The UV stabilised lightweight 150 gauge polythene can be laid directly over your plants or hoops. It will create a micro-climate which will help bring on young crops. It will also protect against frost.

Hessian Fabric 270gsm

Hessian fabric, also known as burlap, is a thick, rough woven material made from jute. At 270gsm, it is a heavy-duty fabric that can provide frost protection for plants and crops as well as having other uses in the garden. The fabric helps to trap warmth and moisture in the soil, preventing the formation of frost & ice.

Hortiwool Garden Pad (Pk 5)

Made from 100% British wool, these pads are a natural, eco-friendly alternative to many garden products including insulation and hanging basket liners. The Pads are insulative, hold moisture and as they break down add vital nutrients to the soil. Pad Size: 27 x 66cm.

HWP5 £10.99

Bubble Wrap

An economical and quick way to line your greenhouse or structure to mimic a double-glazing effect. Double layered and tri laminated making it strong and durable to last many seasons. The bubbles are 25mm in diameter. Insulation clips are on page 39.

BW13	1 x 3m	£16.99
BW1550	1.5 x 50m	£129.99

Outside Tap Cover

This lightweight cover will reduce the likely hood of your outside tap freezing during the winter months. Made from grey insulating foam and black plastic. Sized to fit most outside taps. Size: W:11 x L:16cm.

TAPC £7.49

Victorian Bell Cloches

These bell cloches offer a great growing environment and protection for plants. Especially seedlings, tender planters and semi-hardy plants. They conserve moisture, divert rainwater and warm the soil.

Code	Description	Size in CM	Pack Size	Price
BBPT	Baby	H:20 x D:25cm	3	£7.99

Pea & Bean Netting & Frames

Jute Pea & Bean Netting

This biodegradable netting will provide support for all types of peas, beans, climbing plants and long-stemmed flowers. Can support the heaviest of crops such as cucumbers. Add to your compost when no longer needed. 100% biodegradable. Hole Size: 12 x 12cm

JN11226	1.1 x 2.26m	£5.99
JN205	2 x 5m	£12.99

Green Jute Netting

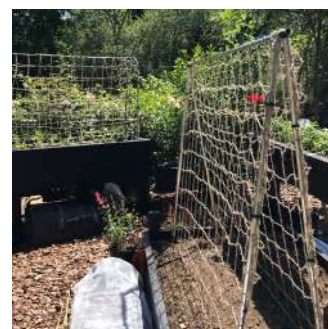

A biodegradable jute netting ideal for all types of peas, beans, climbing plants and long-stemmed flowers. Can support heavy crops such as cucumbers. Add to your compost when no longer needed. 100% biodegradable. Hole Size: 12 x 12cm.

GJN11226	1.1 x 2.26m	£6.49
GJN17328	1.7 x 3.28m	£9.49

Pea & Bean Frame

This elegant frame is ideal for peas and beans or for creating a beautiful arch for climbing flowers. Complete with everything you need including the jute netting, aluminium tubing, connectors, pegs and clips. Height:1.8m x L:2m x adjustable Width.

PBF1 £48.99

Mini Pea & Bean Frame

Made from our strong 19mm aluminium tubing. Perfect for peas, courgettes and cucumbers. The angle of the frame can be flexible so you can decide how wide or narrow you would like it. Includes the jute netting, aluminium tubing, connectors, pegs and clips. Recommended Height: 1.3m x Length 1.5m.

PBF3 £33.99

Small Domed Pea & Bean Frame

Our lightweight aluminium small domed pea and bean frames are a great fit for a raised bed or small growing spaces. They stands at around 75cm tall, 31cm wide and is available in 0.9m or 1.8m length. The 0.9m length comes in one section (two hoops) and the 1.8m comes in two sections (3 hoops).

HPB01	Length:0.9m	£27.99
HPB02	Length:1.8m	£39.99

Pea & Bean Domed Frame

This elegant frame is ideal for peas and beans by creating a beautiful arch for climbing flowers. Includes the jute netting, aluminium tubing, connectors, pegs and clips. Height 1.8m and approx. 0.75m wide and is available in a choice of 3 lengths.

Code	Length in M	Price
PBDF1	1.2	£84.99
PBDF2	1.5	£89.99
PBDF3	2	£94.99

Maypole Plant Support

Our Maypole plant support offers a versatile and elegant way of growing a variety of different plants and flowers.

Made from powder coated steel with strings for the plants to follow and wrap around. Perfect for growing runner beans, clematis and sweet peas. H:1.9 x Dia:1m.

MP1 £24.99

Pea & Bean Netting

Designed to support climbing plants, vegetables and long-stemmed ornamental flowers to promote healthy growth from seedling to maturity. Hole Size: 15 x 15cm.

PB210	2 x 10m	£8.99
PB225	2 x 25m	£15.99

Fruit & Vegetable Cages

All the cages in the catalogue are connected with joiners. If you would like (build a balls) please visit the website or call.

Black & Green Bird Netting Cages

All the cages on this page are covered in bird netting which is ideal for fruit or vegetables. The black bird netting has 20mm x 20mm diamond shape holes, and the green bird netting has 19mm x 19mm diamond shape holes which will stop birds eating your fruit or vegetables. The holes on this netting are large enough to let bees in for pollination.

The cages are available in 4 different heights. First choose the height you require then the width and length. The legs are made from 16mm aluminium and crossbars from 13mm aluminium tubing. If you would like a different size give us a call or drop us an email. Colour: Black or green. For walk-in cages see page 19-22.

Please specify colour of netting on order form

Heavy Duty Low 19mm Fruit & Veg Cages

These heavy duty low fruit and vegetable cage kits are made from our 19mm aluminium. Ideal for protecting crops in windy and exposed areas. The tubes are connected with our strong plastic joiners and are easy to take apart and store when not in use. We have worked out a selection of cages for you but if you would like a different size please call or email us. For details of the netting check out pages 1-6.

Flexible Green Hoops & Tunnel Kits

Create your own garden tunnels/cloches with our flexible garden hoops. Each hoop is 1.8m long (5' 10") & 10mm diameter and comes complete with 2 anchors which give added support when pushed into the soil.

If erected at 1.2m wide (4ft) they will stand approx. 0.6m high (2ft). The hoops will go as narrow as 75cm wide which will increase the height.

The minimum width of netting/fleece required to cover these hoops is 1.8m (6ft). When working out the length of the netting you need to allow for the height of the hoops.

Netting length = length of the tunnel + 1.2m

Our flexible garden tunnel kits come complete with everything you need including a cover of your choice and clips.

No need to buy several tunnels, just change the cover. We have a choice of 9 covers to suit every application.

For extra covers, please visit our website or call 01285 760505.

Modular Black Hoops & Tunnel Kits

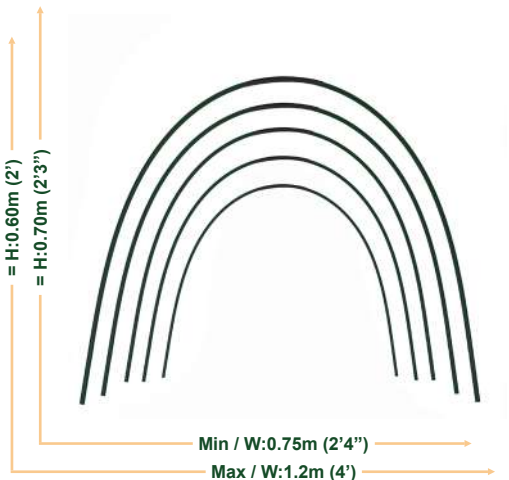

Enjoy the added benefits of our black modular hoops. Just like our Flexible Green Hoops but only half the size, allowing you to create your perfect cloche. The addition of connectors and smaller rods allows you to create tunnels with crossbars, providing extra support for netting and fleece.

The UV stabilised rods are much easier to store when not in use 0.9m (2' 11") long. **You will need 2 x 0.9m black rods and 1 x joiner to create each hoop.** For support bars, use the tee and cross joiners. For a straight hoop without support, use the straight joiner.

Our black modular garden tunnel kits come complete with everything you need, including a cover of your choice. No need to buy several tunnels, just change the cover. We have a choice of 9 covers available. If erected at 1.2m wide (4ft) they will stand approx. 0.6m high (2ft). The hoops will go as narrow as 0.75m (2' 5") wide which will increase the height.

Each tunnel comes complete with everything you need including hoops, clips, pegs, joiners, and choice of cover. (Anchors not included). For extra covers, please visit our website or call 01285 760505.

Portable Aluminium Cloche Tunnel Kits

Brilliant for providing fruit and vegetable crops with all year round protection. For winter protection, just cover with any fleece or polythene to bring on plants and then cover with any of our netting to keep the birds and insects out. Easy to move. These differ from our hoop tunnel kits as they have support bars and base rails so they don't need to be pushed into the soil.

The frames come complete with aluminium support bars, clips for securing the netting and u-pins. If these sizes are not suitable you can create your own using our hoops and accessories on pages 27-28. **If ordering without a cover no pegs or clips are included.**

Everything Included

HDET3	1.8 x 0.9	£15.99

Spiral Plant Support

Insert the stem or cane into the soil in the centre of the plant requiring support. Rotate the head and gather in plant stems. 33cm diamter.

SP003 £17.99

Gripple Garden Trellis

Create highly tensioned wires for maximum support of climbing plants with the Gripple systems. Serrated rollers allow the wire to pass smoothly through in one direction only.

Starter pack consists of 30m of nylon strand, 4 vine eyes and 4 Gripple clips.

Code	Description	Price
GRGS	Starter Pack	£18.99
GRGT1	Tensioners Pack 10	£18.99
GRGW	Trellis Wire 50m	£18.99

Traditional Scroll Pot Trellis Black

This scroll pattern is a traditional design, the trellis is made from galvanised steel with a black powder coating. The long legs make it easy to insert into soil. Size: H:91 x W:38 x D:1cm.

SPT £12.99

Perching Birds Pot Trellis Black

This durable pot trellis is powder-coated galvanised steel. This helps prevent rust corrosion. The long legs make it easy to insert into soil. The trellis has a perching bird design. H:101 x W:25 x D:1cm.

PBPT £14.99

Nematodes

Nematodes are microscopic worms that infect the target pest. They are quickly being recognised as the most effective, organic way of controlling most common garden pests.

Nematodes naturally occur in the soil but sometimes need a little 'top up' to help them in their quest. Extremely easy to apply, simply water into the soil. One application lasts up to 6 weeks in the soil. Completely harmless to children, pets and wildlife.

Please note as these are live material they're best refrigerated on delivery, each pack will have an expiry date of approx. 2-3 weeks.

Slug Nematodes

Tackling slugs has never been easier. Slug nematodes are microscopic transparent worms which seek out, feed and then multiply inside the slug. Simple to apply and highly effective, an infected slug stops feeding within 3/5 days. NB: This product is not proven to work against snails.

One application lasts up to 6 weeks in the soil.
Best applied: Feb-Oct (depending on weather).

Please specify required delivery date when ordering. If ordering multiple deliveries, please specify each date required.

Code	Pack Size	Number of Deliveries	Price
SN001	40m ²	Single Delivery	£13.99
SNS2	40m ²	2 Deliveries	£27.98
SNS3	40m ²	3 Deliveries	£41.97
SNS4	40m ²	4 Deliveries	£55.96
SN002	100m ²	Single Delivery	£28.99
SNL2	100m ²	2 Deliveries	£57.98
SNL3	100m ²	3 Deliveries	£86.97
SNL4	100m ²	4 Deliveries	£115.96

Vine Weevil Nematodes

Avoid damage to the roots of your plants. Nematodes will seek out and kill vine weevil larvae which feed on root stem bases, severely weakening or killing plants. Vine Weevils are mainly a problem in pots. Best applied: Mar-Oct.

VW004	12m ²	£10.49
VW003	100m ²	£32.99

Chafer Grub Nematodes

Chafer grubs cause lawn damage by feeding on the roots of grasses. Use nematodes to deal with an infestation without chemical use. The nematodes seek out the chafer grubs and attack the pest by entering natural body openings. Once inside they release a bacteria that stops the pest from feeding quickly killing it. Best applied: Aug-Oct.

CN002	100m ²	£31.99
CN001	500m ²	£104.99

Ant Nematodes

Apply when ants are visible, this is typically April to September. Ants do not tolerate the nematodes near their nests and move away from treated areas.

AN001	16 Nests / 16m ²	£11.49
AN002	50 Nests / 50m ²	£22.99

Leatherjacket Nematodes

Leatherjackets are the larval stage of the daddy long-legs. They feed on grass roots, causing growth to slow and yellow patches to appear. Apply 1-2 weeks after first spotting the daddy long-legs.

Easy to apply and extremely effective, the nematodes will seek out and enter the leatherjackets which stops the pest feeding. Best applied: Aug-Oct.

LJ003	100m ²	£17.99
JL002	500m ²	£72.99

Natural Fruit & Veg Protection Nematodes

A unique mix of nematode species to target a broad range of pests. Specifically researched to combat carrot root fly, cabbage root fly, cutworms, onion fly, sciarid fly, caterpillars, gooseberry sawfly, thrips and codling moth. Best applied: Apr-Oct. For codling moth apply Sept-Oct.

NFV01	60m ²	£8.49
-------	------------------	-------

NemaTop Vine Weevil Trap

The specially designed boards are placed face down directly onto the ground beneath your plants where the adult beetles crawl. The nematodes infect the adult beetles and kills them. Safe for children, pets and wildlife. Treats an area of up to 10m² or 5m of hedging. Each trap lasts for approx 6 weeks. Best applied June-Sept.

NT001	10m ² or 5m of Hedging	£19.99
-------	-----------------------------------	--------

Nematode Applicator

Attach to the end of a hose pipe to apply nematodes quickly and efficiently. Easy to grip handle, trigger lock and three spray patterns. Can also be used as a garden feeder. Please note: The feeder includes free food which isn't natural or organic.

MGF1	£15.99
------	--------

Watering Can Rose - Coarse

The large holes make it very well suited for applying nematodes and general watering of established plants and foliage. Fits most standard watering cans. Hole size approx 1.5-2mm.

WRC2	£5.49
------	-------

Nematode Compression Sprayer 6L

Made from sugarcane this is a powerful, efficient, multipurpose compression (45 PSI) garden sprayer also applies nematodes. Height: 47 x Dia: 20cm. Capacity 6L.

NCS6	£59.99
------	--------

Watering Can 6.5L

Made from high-quality, recycled materials for optimum durability. Features a large, comfortable handle that makes it easy to hold and pour.

The unique spout design allows for a gentle and precise flow of nematode solution, making it perfect for applying nematodes. Holds 6.5L of water. H: 31 x W: 12 x L: 46cm.

WCN	£5.99
-----	-------

Topiary

Topiary frames are metal or wire frameworks that are used to shape and train plants into specific forms. They come in various shapes and sizes, such as animals and abstract designs.

They are often used to create intricate and detailed designs in gardens, patios, and other outdoor spaces. These are resistant to rust and corrosion, making them suitable for use in all types of weather conditions.

Fruit Protection

Raspberry Beetle Trap

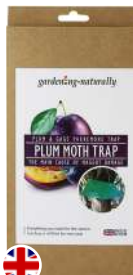

The Raspberry beetle trap allows you to detect early signs of the beetle. The trap is designed to catch adult beetles as they emerge from the soil in the spring.

Trap - Includes 1 x Trap & 1 x pheromone lure. **Refill** - Includes 1 x pheromone lure. One lure will last 4-6 weeks (1 season). For later flowering berries a second lure is recommended.

RBT	1 Trap	£19.99
RBTR	1 Refill	£7.99

Plum Moth Trap

Protect your plums, gages and damsons from maggots. This trap uses the pheromone scent of the female moth to attract and catch male moths. 1 trap should monitor up to 3 average size trees. Contains everything for a season, just buy a refill for subsequent years. Use from May to August.

Code	Description	Price
PM1	1 Trap	£9.75
PM2	1 Refill	£6.75
PM3	1 Trap & Refill	£14.49

Natural Plant Feed

All round plant feed from Gardening Naturally will allow you to grow bigger and better plants. This plant feed is the perfect solution for adding essential nutrients and minerals to fruit, vegetables, flowers and even house plants.

Code	Size	Makes	Price

Winter Tree Wash

This blend of natural plant and fish oils has been formulated to remove the debris, dust and dirt from trees. The insects are no longer able to secure their eggs on to the plants and trees. Suitable for edible and ornamental crops. Dilute and apply as a spray. Size: 500ml dilutes to 10L.

WT1	£13.99
-----	--------

Fruit Tree Grease

Brush directly on to bark, pots, benches and support posts to protect plants from winter moths, ants and many other crawling insects. 200g.

FTG1	£8.49
------	-------

Apple Sawfly Sticky Traps Pk 5

Identify if you have an apple sawfly problem. Sawflies lay eggs at the base of the flowers, the eggs hatch and the larvae bore into the core of the fruitlets and this causes affected fruit to drop in early summer.

1 trap per tree. The traps should be in place early April until June.

AST5	£3.99
------	-------

Jasper Grasper Wasp Trap

Stop unwanted insect pests ruining your garden fun this summer. Can be emptied, cleaned and re-used. Fill with vinegar, beer or fruit juice concentrate. Size: H:13 x Dia:9.5cm.

WASPT	£2.99
-------	-------

Clear Glue Bands

These clear glue bands have a non-toxic, non-drying glue surface which forms a barrier to stop infestations of winter moths, ants and other crawling insects including adult vine weevil. Use from October until April to protect against winter moths. Use from May to August to protect against ants and crawling insects. Approx 16cm wide.

GB2	2 x 1m Bands + String	£4.99
GB5	5m band + String	£9.99

Fruit Tree Sleeves

A great way to protect your fruit from birds, aphids and adverse weather. Sleeves are 30cm diameter x 1m in length. Each sleeve has a zip along the length which makes it easy to fit around the branch and zip it shut.

FTS	£12.99
-----	--------

Codling Moth Trap

Protect your apples and pears from maggots. This trap uses the pheromone scent of the female moth to attract and catch male moths. 1 trap should monitor up to 5 average size trees with a range of 15 metres (50 feet) of the trap.

Contains everything for a season, just buy a refill for subsequent years. Use from May to August.

Code	Description	Price
CM1	1 Trap	£9.75
CM2	1 Refill	£6.75
CM3	1 Trap & Refill	£14.49

Fruit Tree Netting Bags

The most practical way to protect your fruit trees from insects and pests. Made from ultra fine veggiemesh (0.8 x 0.8mm holes) complete with a zip for easy placement.

FTPN1	W:1.2m x H:2m	£39.99
FTPN2	W:2.5m x H:4m	£59.99

Strawberry Mats

Copper impregnated fabric which stops slugs and snails, retains moisture, suppresses weeds and keeps fruit clean. Re-useable. Place black side facing up.

Small: 28cm diameter (11")

Cedar Raised Beds

Our wooden raised beds provide the ideal growing space to 'Grow Your Own'. Perfect for fruit, vegetables and herb growing. Made from high-quality Cedar wood.

Each cedar board is 14.5cm high x 3.2cm thick and is planed for an attractive finish. Please note that as timber is a natural product and is susceptible to shrinkage/swelling, all sizes are therefore nominal +/- 5mm. Sizes apply to external dimensions.

Please note: the wood is not treated.

Supplied with cedar boards, internal corner fixing posts, galvanised screws and full instructions. Homegrown British Cedar.

ECOW2	22L Treats 750sqft	£64.99

Composting

Tumbling Composters

The tumbling/rotating composters contain a mechanism with rods/fins which mixes and breaks up larger clusters of matter and provide aeration which then activate and speed up the decomposing process. Such composters are able to reach a temperature of more than 60°C. A rotating bin can cut months from the composting process and you can create compost in weeks. The sealed chambers help preserve the heat produced from the compost.

105L Tumbling Composter

Size: H:84cm (2'9") x W:61 (2'1") x D:60cm (1'11") (barrel size 61cm x 61cm).

Code	Description	Price
BOK2	Bokashi Bucket Kit	£39.99
B1K	Bokashi Bran 1kg	£6.99
B3K	Bokashi Bran 3kg	£16.99

1kg of Bokashi bran approx. 3 - 4 months supply.
Bucket size: H:37 x W:30 x D:25cm.

Bokashi Kit & Bran

This Bokashi kit is effectively a kitchen composter, it will enable you to create a continuous cycle of rich organic pre compost from your food waste. It also produces a liquid which can be diluted and used as a plant food. Bokashi is a bran which is infused with effective micro-organisms, you just sprinkle some over your waste food each time you add a layer to your bucket.

Kit Includes:

2x Bokashi Buckets,
2x Inner drain trays,
1x Scoop, 1x tamper,
1x Instruction leaflet
1x Kg of Bokashi Bran

Compost Caddy

Ideal for storing compostable kitchen waste. The activated carbon filter, housed in the lid, contains any unpleasant odours. Filters lasts 3 to 4 months.

Hotbin Composters

Staying tightly compacted to hold in the heat and a moisture recirculation system means quicker composting. They have an impressive design which creates an internal environment that is exceptionally efficient for healthy aerobic (hot) composting in almost all climates, all year round!

The perfect hot and humid conditions help facilitate healthy decomposer microorganisms to demolish the contents of your hot composter, taking the nitrogen and carbon from the waste and leaving a nutritionally dense, organic material which will allow your plants to thrive.

Please note that all the hotbin composters come with a Leachate hose extension kit, which enables easier extraction of the liquid fertiliser (leachate).

-----	--------

Darlac Two & Four Way Tap Manifold

Simply connect to your outdoor tap to create two or four water outputs. When one is not needed simply turn the handle. NB: Thread adaptors for non standard taps are available from plumbers' merchants.

YC001	Brass Two Way Y Connector	£15.99
FWBM	Four Way Brass Manifold	£34.99

Tomato Growpots™

The outer trough holds 4 pints of water or feed which gradually seeps into the compost taking a constant supply directly to the plant root. Made from strong plastic, the Growpots measure 28cm in diameter (outside edge of pot) and 24cm at bottom. 18cm in height, and will last for many seasons.

Using the watering spikes to cut into the growbag, three can sit neatly into a bag of compost and are excellent for many crops, in particular, tomatoes, aubergines and chillies.

Black Growpots made from recycled plastic.
