Please Note: Products may differ slightly from the published photograph. All products and prices are correct at the time of printing but may be subject to change. Customers will be notified of any changes when ordering.

All sizes and specs quoted are approx only. Whilst we endeavour to deliver your order on time and in perfect condition, we recommend that no arrangements for installation involving third-party contractors are made until you're goods have been received and checked.

Where the Union Jack appears, these products are all manufactured in the UK.

Returns

You can return items for a refund within 30 days. The goods must be in perfect condition and in their original packaging.

Please ensure you enclose your name and address, account number, order number and reason for return. Please note that nematodes and biological controls are non-returnable.

Postage: If there is an orange or red parcel next to the line or product title for the item(s) you have ordered, the higher postage charge will apply. If no parcel, our standard £4.98 applies (excluding when just ordering nematodes or gift vouchers which is free carriage).

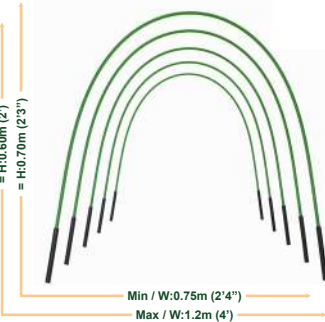

📦 £4.98 📦 £6.98 📦 £14.99

Coir Bricks & Discs

Coir is a natural fibre made from coconut fibre, also known as coconut coir. Coir has become increasingly popular due to it's benefits in seed cultivation. Coir can be used in conjunction with soil or as their own individual growing medium. Disc pellets expand to approx 3inches when moistened. 1 x brick makes approx 9L or coir.

Code	Pack Size	Price

Garden Netting

Black & Green Soft Butterfly Netting

Our soft butterfly netting will protect crops from birds & cabbage white butterflies.

This netting feels more like a soft fabric to touch and has a mesh size of 5mm x 7mm. Light and soft enough to lay over the crop, hoops or cages.

It is also ideal for protecting ponds from debris and any unwanted intruders. You can water and feed through the netting.

Approx weight - 35gr/m².
This netting will last 5-10 years.
HDPE UV stabilised.

How To Use

Lay the soft butterfly netting directly over crops, secure with pegs and clips or use over hoops, cages or frames.

Black Bird Netting

High quality, heavy-duty netting that will keep out birds and garden pests from your fruit and vegetables without causing them harm. The 20mm x 20mm diamond mesh will deter birds but will still allow the bees through to pollinate.

Made from high-density UV stabilised polyethylene, our bird netting is soft to the touch, tangle free, and can be laid directly over crops, cages or hoops. Approx weight 37gr/m². UV stabilised polyethylene.

How To Use

Cover plants or seeds immediately after planting or sowing (ensure plants are free from insect pests) and leave covered until harvest. Always allow enough slack for the plants to grow, the edges can be buried or secured with pegs ensuring there are no gaps.

Eco Ultrafine Veggiemesh, Biodegradable Insect Netting

Our new Eco Ultrafine Veggiemesh is one of the first biodegradable garden nettings in the UK. Can be left outdoors and has a minimum lifespan of 3 years. After this it will start to break down into carbon dioxide and water.

Designed to keep out the smallest of pests including whitefly, flea beetle and some smaller aphids. Made from corn starch. Fully compostable. Mesh size 0.85mm x 0.85mm.

Code	Size in M	Price
EUF215	2.1 x 5	£27.49
EUF2110	2.1 x 10	£50.99
EUF2120	2.1 x 20	£97.99

Carrot Netting

Create a barrier against carrot root fly with our 1m high/ wide carrot netting. This netting has even smaller holes (0.27mm x 0.88mm) than our ultra-fine netting, helping to suppress and contain the aroma which attracts the fly.

Gardening Naturally's carrot fly netting has even smaller holes (0.27mm x 0.88mm) than the ultra-fine Veggiemesh netting. Carrot fly netting helps to suppress and contain the aroma which attracts the carrot fly protecting your carrots.

Windbreak & Shade Netting

Windbreak & shade netting reduces the physical and drying affects of the wind whilst providing 40% shade. Use all year round to protect plants and seedlings from sun and wind damage. Can also be used as privacy fencing.

To create a fence we would recommend stapling the netting to wooden posts. Can be used inside or outside for greenhouse shading. HDPE UV stabilised. Weight 135g/m². Green.

Poultry/Fruit Cage Netting

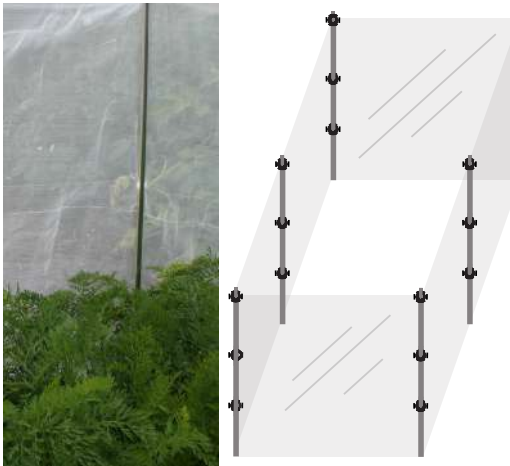

A slightly stiff but flexible heavy-duty netting ideal for poultry cages, fruit cages and other garden uses.

The 17mm x 17mm mesh deters birds whilst allowing bees through for pollination. We use this on the sides of our walk-in fruit cages with black bird netting on the roof. Colour black.

How To Use

Ensure the fleece is well pegged down or secured around the plant. If using on pot plants, cover the pot too.

Hessian Fabric 270gsm

Hessian fabric, also known as burlap, is a thick, rough woven material made from jute. At 270gsm, it is a heavy-duty fabric that can provide frost protection for plants and crops as well as having other uses in the garden.

The fabric helps to trap warmth and moisture in the soil, preventing the formation of frost & ice.

Flexible Frost Protection Tunnel Kits

Garden tunnels for winter protection of crops. Choose from Thermacrop, polythene or 30g fleece. These tunnels can be used all year round, when crops are more hardy and the risk of frost has gone, change the cover to netting.

If erected at 1.2m wide (4ft) they will stand approx. 0.6m high (2ft).

The hoops will go as narrow as 75cm wide which will increase the height.

For extra covers, please visit our website or call 01285 760505.

Cover & Length	2.9m	3.9m	4.9m	5.9m
Thermacrop	GHT29 £30.62	GHT39 £37.18	GHT49 £43.70	GHT59 £50.36
30g Fleece	GHF29 £28.08	GHF39 £34.08	GHF49 £40.06	GHF59 £46.15
Polythene	GHY29 £25.89	GHY39 £31.40	GHY49 £36.88	GHY59 £42.49

Polythene

The UV stabilised lightweight 150 gauge polythene can be laid directly over your plants or hoops. It will create a micro-climate which will help bring on young crops. It will also protect against frost.

Code	Size in M	Price
PO180	1.8m per metre	£1.17
PO185	1.8 x 5	£5.49

Fruit & Vegetable Cages

Black & Green Bird Netting Cages

All the cages on this page are covered in bird netting which is ideal for fruit or vegetables. The black bird netting has 20mm x 20mm diamond shape holes, and the green bird netting has 19mm x 19mm diamond shape holes which will stop birds eating your fruit or vegetables. The holes on this netting are large enough to let bees in for pollination.

The cages are available in 4 different heights. First choose the height you require then the width and length. The legs are made from 16mm aluminium and crossbars from 13mm aluminium tubing. If you would like a call or drop us an email. Colour: Black or green. For walk-in cages see page 25-28.

All the cages in the catalogue are connected with joiners. If you would like (build a balls) please visit the website or call us on 01285 760 505.

Veggiemesh® Netting Cages

All the cages on this page are covered in Veggiemesh® insect netting which is ideal for fruit or vegetables. This netting has 1.35mm x 1.35mm holes which will keep out a wide range of garden pests including cabbage root fly, carrot fly, cabbage white butterfly, pea moth, leek moth, cutworm, onion fly, leaf miners and many species of aphids. If you are growing crops which need pollination you will need to lift the netting during flowering.

The cages are available in 4 different heights. First choose the height you require then the width and length. The legs are made from 16mm aluminium and crossbars from 13mm aluminium tubing. If you would like a different size give us a call or drop us an email.

All the cages in the catalogue are connected with joiners. If you would like (build a balls) please visit the website or call us on 01285 760 505.

Black & Green Butterfly Netting Cages

All the cages on this page are covered in soft butterfly netting which is ideal for fruit or vegetables, in particular brassica and salad crops. We also have cages covered in bird netting or insect netting. This netting has 5mm x 7mm holes which will stop birds and cabbage white butterfly. If you are growing crops which need pollination you will need to lift the netting during flowering.

The cages are available in 4 different heights. First choose the height you require then the width and length. The legs are made from 16mm aluminium and crossbars from 13mm aluminium tubing. If you would like a different size give us a call or drop us an email. **Netting available in green & black.**

All the cages in the catalogue are connected with joiners. If you would like (build a balls) please visit the website or call us on 01285 760 505.

Cages Without Netting

All the cages on this page have no netting, ideal if you already have your own netting. If you would like netting on your cage see the netting we offer on pages 1-6. Or see pages 17-22 for our complete cage kits.

The cages are available in 4 different heights. First, choose the height you require then the width and length. If you would like a different size give us a call or drop us an email. 0.5m erected height cages are also available on the website. These cages are just poles, joiners and instructions. The legs are made from 16mm aluminium and crossbars from 13mm aluminium tubing. If you require pegs and clips see page 13-14.

Heavy Duty Low 19mm Fruit & Veg Cages

These heavy duty low fruit and vegetable cage kits are made from our 19mm aluminium. Ideal for protecting crops in windy and exposed areas. The tubes are connected with our strong plastic joiners and are easy to take apart and store when not in use. We have worked out a selection of cages for you, but if you would like a different size please call or email us. For details of the netting check out pages 1-6.

Build Your Own Low Cages

DIY 13mm & 16mm Low Cages

Build your own vegetable cages with our aluminium tubes, connectors, build a balls, garden netting, pegs and clips.

13 & 16mm Tubing

Please Note: When designing a low cage remember to use the 13mm tubes for the crossbars and the 16mm tubing for the upright legs.

13mm Crossbars

Code	Length	Price
AT136	600mm	£1.40
AT136E	600mm Extension	£2.45
AT139	900mm	£1.99
AT139E	900mm Extension	£3.30
AT13987	987mm	£2.20
AT13108	1.08m	£2.30
AT1312	1.2m	£2.75
AT13150	1.5m	£3.25

16mm Uprights

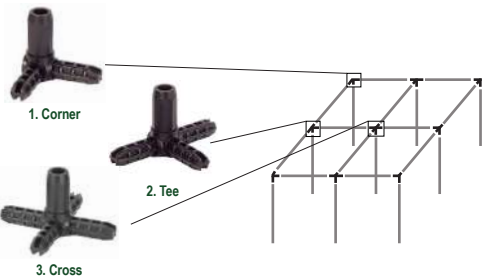

Code	Length	Price
AT166	600mm	£1.45
AT166E	600mm Extension	£2.55
AT169	900mm	£2.09
AT169E	900mm Extension	£3.49
AT1612	1.2m	£2.90
AT1615	1.5m	£3.40

Low Cage Joiners

Simple, easy to use and more economical. Just push inside the tubing. Each cage will need 4 corners. Tees and crosses can be used for making cages longer and wider. All joiners have one 16mm fitting, the rest are 13mm.

No.	Code	Description	Price
1	JOCO	Corner	£0.90
2	JOTE	Tee	£0.95
3	JOCR	Cross	£0.99

Aluminium Anchors

Provide extra stability for frames with loose soil or windy conditions. 24.5cm (9.5") long. Push into the soil and slot the 16mm upright inside them.

Code	Pack Size	Price
AA001	Single	£1.99
AA001/4	4	£7.49
AA001/6	6	£10.99
AA001/8	8	£14.25

Build-a-Balls

Ideal for creating a variety of garden structures using our sturdy aluminium tubing. Each (build-a-ball) has one 16mm hole and five 13mm holes. 1 build-a-ball per joint.

Code	Pack Size	Price
BB005	Single	£1.35

Aluminium Hoops

We recommend spacing all hoops at approximately 1m (3'3") intervals.

Enjoy the simplicity of using our hoops to protect your fruit and vegetables. Simply push the hoops into the ground, cover with any netting or fleece to provide protection against pests and the weather. All our hoops are made from 19mm aluminium and come supplied with clips for holding the netting or fleece secure. We offer a range of accessories which fit all our aluminium hoops.

Flexible Green Hoops & Tunnel Kits

Create your own garden tunnels/cloches with our flexible garden hoops. Each hoop is 1.8m long (5' 10") & 10mm diameter and comes complete with 2 anchors which give added support when pushed into the soil.

If erected at 1.2m wide (4ft) they will stand approx. 0.6m high (2ft). The hoops will go as narrow as 75cm wide which will increase the height.

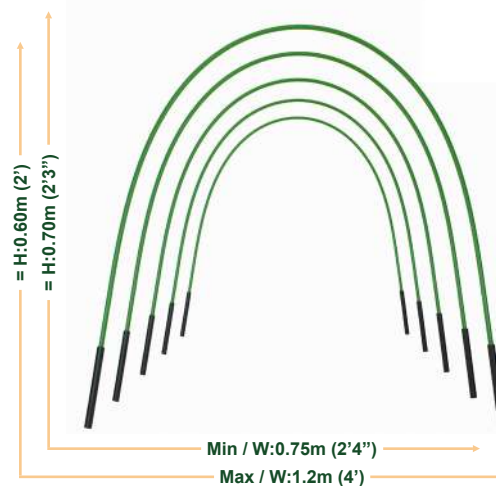

The minimum width of netting/fleece required to cover these hoops is 1.8m (6ft). When working out the length of the netting you need to allow for the height of the hoops.

Netting length = length of the tunnel + 1.2m

Our flexible garden tunnel kits come complete with everything you need including a cover of your choice and clips. No need to buy several tunnels, just change the cover. We have a choice of 9 covers to suit every application.

For extra covers, please visit our website or call 01285 760505.

Modular Black Hoops & Tunnel Kits

Enjoy the added benefits of our black modular hoops. Just like our Flexible Green Hoops but only half the size, allowing you to create your perfect cloche. The addition of connectors and smaller rods allows you to create tunnels with crossbars, providing extra support for netting and fleece.

The UV stabilised rods are much easier to store when not in use 0.9m (2' 11") long. **You will need 2 x 0.9m black rods and 1 x joiner to create each hoop.** For support bars, use the tee and cross joiners. For a straight hoop without support, use the straight joiner.

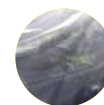

Our black modular garden tunnel kits come complete with everything you need, including a cover of your choice. No need to buy several tunnels, just change the cover. We have a choice of 9 covers available. If erected at 1.2m wide (4ft) they will stand approx. 0.6m high (2ft). The hoops will go as narrow as 0.75m (2' 5") wide which will increase the height.

Each tunnel comes complete with everything you need including hoops, clips, pegs, joiners, and choice of cover. (Anchors not included). For extra covers, please visit our website or call 01285 760505.

Portable Aluminium Cloche Tunnel Kits

Brilliant for providing fruit and vegetable crops with all year round protection. For winter protection, just cover with any fleece or polythene to bring on plants and then cover with any of our netting to keep the birds and insects out. Easy to move. These differ from our hoop tunnel kits as they have support bars and base rails so they don't need to be pushed into the soil.

The frames come complete with aluminium support bars, clips for securing the netting and u-pins. If these sizes are not suitable you can create your own using our hoops and accessories on pages 35-36. **If ordering without a cover no pegs or clips are included.**

All Round Plant Supports

The frame is manufactured from strong green powder-coated steel wire, making it easy for your plants to grow through. They will give your plants the ability to grow beautifully without the risk of stem breakages.

ARSF30/2	H:46 x Dia:30cm	£19.99
ARSF41/2	H:61 x Dia:41cm	£27.99

Maypole Plant Support

Made from black powder-coated steel, the Maypole is both versatile and elegant. Size: Height: 1.9m (6' 6") x Width: 1m (3' 3").

MP1 £24.99

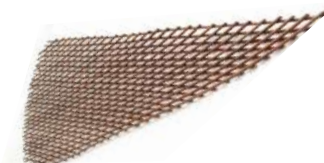

Expanding Willow Trellis

Ideal for providing decorative support to your climbing plants. Made from natural willow from renewable sources.

Easy to assemble, simply expand the trellis to the size that you need. Diameter of willow varies from 0.5cm - 1cm in sizes.

Due to harvesting difficulties, our suppliers have had to review the specifications of the trellis, therefore, the product may look different from pictured and the hole sizes may be slightly bigger.

Folding 3 Panel Farmhouse Obelisk

The 3-panel folding Obelisk Trellis Support is a modern and versatile way to introduce a heightened structure into your environment. Black-coated powder finish H:1.6m.

FTR3P £39.99

Perching Birds Pot Trellis Black

This durable pot trellis is powder-coated galvanised steel. This helps prevent rust corrosion. The long legs make it easy to insert into soil. The trellis has a perching bird design. H:101 x W:25 x D:1cm.

PBPT £14.99

Poppy Planter Trellis

Dual pronged base with rust effect finish. Height:81cm x Erected Height:66cm. Width 23cm.

PBPS30 £25.99

Fern Planter Trellis

Dual pronged rustic effect fern plant support. Height:81cm. Erected Height:66cm.

FBPS30 £22.99

Heavy Duty Plant Pot Caddy

This Heavy-Weight Black Planter Caddy with metal casters is a durable, hard-wearing solution for easy movement and reshuffling of your indoor or outdoor environment.

Designed to be multi-purpose and incredibly versatile for a variety of medium/larger pot. Manufactured from environmentally friendly, 100% recycled plastic, Diameter 35.5cm / 14 inches.

HWPC	Single	£19.99
HWPC2	Pack of 2	£35.99

Slug Nematodes

Tackling slugs has never been easier. Slug nematodes are microscopic transparent worms which seek out, feed and then multiply inside the slug. Simple to apply and highly effective, an infected slug stops feeding within 3/5 days. NB: This product is not proven to work against snails.

One application lasts up to 6 weeks in the soil. Best applied: Feb-Oct (depending on weather). Please specify required delivery date when ordering. If ordering multiple deliveries, please specify each date required.

Code	Pack Size	Number of Deliveries	Price
SN001	40m ²	Single Delivery	£14.99
SNS2	40m ²	2 Deliveries	£29.98
SNS3	40m ²	3 Deliveries	£44.97
SNS4	40m ²	4 Deliveries	£59.96
SN002	100m ²	Single Delivery	£29.99
SNL2	100m ²	2 Deliveries	£59.99
SNL3	100m ²	3 Deliveries	£89.97
SNL4	100m ²	4 Deliveries	£119.96

NemaTop Vine Weevil Trap

The specially designed boards are placed face down directly onto the ground beneath your plants where the adult beetles crawl. The nematodes infect the adult beetles and kills them.

Safe for children, pets and wildlife. Treats an area of up to 10m² or 5m of hedging. Each trap lasts for approx 6 weeks. Best applied June-Sept.

NT001	10m ² or 5m of Hedging	£19.99
-------	-----------------------------------	--------

Vine Weevil Nematodes

Avoid damage to the roots of your plants. Nematodes will seek out and kill vine weevil larvae which feed on root stem bases, severely weakening or killing plants. Vine Weevils are mainly a problem in pots. Best applied: Mar-Oct.

VW004	12m ²	£10.49
VW003	100m ²	£28.99

Chafer Grub Nematodes

Chafer grubs cause lawn damage by feeding on the roots of grasses. Use nematodes to deal with an infestation without chemical use. The nematodes seek out the chafer grubs and attack the pest by entering natural body openings. Once inside they release a bacteria that stops the pest from feeding quickly killing it. Best applied: Aug-Oct.

CN002	100m ²	£31.99
CN001	500m ²	£109.99

Ant Nematodes

Apply when ants are visible, this is typically April to September. Ants do not tolerate the nematodes near their nests and move away from treated areas.

AN001	16 Nests / 16m ²	£11.49
AN002	50 Nests / 50m ²	£19.99

Leatherjacket Nematodes

Leatherjackets are the larval stage of the daddy long-legs. They feed on grass roots, causing growth to slow and yellow patches to appear. Apply 1-2 weeks after first spotting the daddy long-legs. Easy to apply and extremely effective, the nematodes will seek out and enter the leatherjackets which stops the pest feeding. Best applied: Aug-Oct.

LJ003	100m ²	£16.99
JL002	500m ²	£74.99

Natural Fruit & Veg Protection Nematodes

A unique mix of nematode species to target a broad range of pests. Specifically researched to combat carrot root fly, cabbage root fly, cutworms, onion fly, sciarid fly, caterpillars, gooseberry sawfly, thrips and codling moth. Best applied: Apr-Oct. For codling moth apply Sept-Oct.

NFV01	60m ²	£8.99
-------	------------------	-------

This year we have decided to add our own brand nematodes to our catalogue which we have been selling for many years. They are the same type of nematodes as the Nemasys brand, just manufactured in a slightly different way, both as effective as each other. Please order for the date you wish to use them. Nematodes are a live product so will have an expiry date of around 2 weeks.

Chafer Nematodes

Chafer grubs feed on grass roots causing grass growth to slow and yellow patches to appear. Chafer grub nematodes will naturally get rid of the chafer grubs preventing damage.

Best applied around August/October but can be used outside of the recommended dates and may still aid control.

CN50	100m ²	£26.99
------	-------------------	--------

Slug Nematodes

Slug Nematodes are the most effective natural pest control to rid your garden of slugs. They are microscopic, transparent worms, which feed and multiply inside the slug. Safe to use around children, pets and wildlife.

The nematodes are found naturally in the soil, you are just topping up the numbers by applying these.

SN40	40m ²	£13.99
------	------------------	--------

Ant Nematodes

Ant nematodes. The parasitic nematode, *Steinernema feltiae*, can be used as a non-chemical control for black, red and yellow ants. Safe to children, pets and wildlife. The ants do not tolerate the nematodes (*Steinernema feltiae*) near their nests and move their nests away from these areas. Best applied in the spring and summer. The lawn is safe to use straight after application.

AN16	16 Nests	£10.99
AN50	50 Nests	£18.99

Vine Weevil Nematodes

Vine weevil's are an insect that can feed on a wide range of ornamental plants and fruits, especially those grown in containers. The adult vine weevils eat leaves, and the grubs eat roots.

Our Vine Weevil nematodes offer the perfect natural solution to stop these pests from destroying the roots of your plants. Nematodes are a microscopic worm that feeds and multiplies inside the larva. The nematodes seek out and kill the Vine Weevil larvae.

VW6	12m ²	£10.49
VW50	100m ²	£25.99

Leatherjacket Nematodes

Leatherjackets are the larval stage of the crane fly or daddy-long-legs. When the adult crane flies begin to appear they will, within a few days begin to lay eggs that will hatch and within a couple of weeks cause damage to your lawn. This usually takes place around the end of August but can happen sooner depending on the weather.

LJ50	100m ²	£17.99
------	-------------------	--------

Sciarid Fly Nematodes

Sciarid fly (also known as fungus gnat or compost fly) is a troublesome pest of houseplants and plants in greenhouses and conservatories. The larval stage of the sciarid fly attacks the roots of plants and may cause the death of seedlings. These nematodes will attack the larvae which will in turn significantly reduce the Sciarid fly.

SFLY	12m ²	£10.99
------	------------------	--------

Sprayers

Nematode Compression Sprayer 6L

Made from sugarcane this is a powerful, efficient, multipurpose compression (45 PSI) garden sprayer also applies nematodes. Height: 47 x Dia: 20cm. Capacity 6L.

NCS6 £59.99

Watering Can 6.5L

Made from high-quality, recycled materials for optimum durability. Features a large, comfortable handle that makes it easy to hold and pour.

The unique spout design allows for a gentle and precise flow of nematode solution, making it perfect for applying nematodes. Holds 6.5L of water. H: 31 x W: 12 x L: 46cm.

Nematode Applicator

Attach to the end of a hose pipe to apply nematodes quickly and efficiently. Easy to grip handle, trigger lock and three spray patterns. Can also be used as a garden feeder. Please note: The feeder includes free food which isn't natural or organic.

Watering Can Rose - Coarse

The large holes make it very well suited for applying nematodes and general watering of established plants and foliage. Fits most standard watering cans. Hole size approx 1.5-2mm.

Slugs & Snails

Slug Plug Wool Pellets

Protect your flower beds, borders, veg patches, pots and containers with these highly effective wool pellets. The wool fibres irritate the slug and snails foot and make it very difficult for them to travel across. Improves plant growth with biologically derived slow-release nutrients to help improve soil conditioning.

Code	Size	Coverage	Price
SWP35	3.5 Litre	6 x 10" Pots	£9.99
SWP7	7 Litre	12 x 10" Pots	£17.99
SWP15	15 Litre	25 x 10" Pots	£36.99

Sluggo Slug & Snail Killer

Sluggo pellets are rain resistant and swell when damp making them even more attractive to slugs and snails. Unconsumed pellets biodegrade to convert into iron and phosphate in the soil, delivering added nutrients to your plants. Certified for organic use. Safe for pets, children & wildlife. 800g treats 160m².

Code	Size	Type	Price
SSK1	800g	Bottle	£7.99

SML/50	50	Large	£54.99

Codling Moth Trap

Protect your apples and pears from maggots. This trap uses the pheromone scent of the female moth to attract and catch male moths. 1 trap should monitor up to 5 average size trees with a range of 15 metres (50 feet) of the trap.

Contains everything for a season, just buy a refill for subsequent years. Use from May to August.

Code	Description	Price
CM1	1 Trap	£9.75
CM2	1 Refill	£6.75
CM3	1 Trap & Refill	£14.49

Plum Moth Trap

Protect your plums, gages and damsons from maggots. This trap uses the pheromone scent of the female moth to attract and catch male moths. 1 trap should monitor up to 3 average size trees. Contains everything for a season, just buy a refill for subsequent years. Use from May to August.

Code	Description	Price
PM1	1 Trap	£9.75
PM2	1 Refill	£6.75
PM3	1 Trap & Refill	£14.49

Winter Tree Wash

This blend of natural plant and fish oils has been formulated to remove the debris, dust and dirt from trees. The insects are no longer able to secure their eggs on to the plants and trees. Suitable for edible and ornamental crops. Dilute and apply as a spray. Size: 500ml dilutes to 10L.

WT1 £13.99

Fruit Tree Grease

Brush directly on to bark, pots, benches and support posts to protect plants from winter moths, ants and many other crawling insects. 200g.

FTG1 £8.49

Apple Sawfly Sticky Traps Pk 5

Identify if you have an apple sawfly problem. Sawflies lay eggs at the base of the flowers, the eggs hatch and the larvae bore into the core of the fruitlets and this causes affected fruit to drop in early summer. 1 trap per tree. The traps should be in place early April until June.

AST5 £4.49

Clear Glue Bands

These clear glue bands have a non-toxic, non-drying glue surface which forms a barrier to stop infestations of winter moths, ants and other crawling insects including adult vine weevil. Use from October until April to protect against winter moths. Use from May to August to protect against ants and crawling insects. Approx 16cm wide.

GB2	2 x 1m Bands + String	£5.99
GB5	5m band + String	£9.99

Insect & Pest Control

Tomato Leaf Miner Trap

The larvae burrow into the leaves, stems and if infestations are high into the tomato too damaging the plant and causing loss of fruit. The adults are small and a brown or silver colour with black spots. The total life cycle is 30-35 days and there are several generations every year, more if the temperatures are high. All plant debris must be destroyed, and all infested leaves removed.

The leaf miners can use broadleaf weeds as hosts. Ensure you keep weeds to a minimum inside and outside of the greenhouse. Adult leaf miners can also be trapped using yellow sticky traps.

Hang the trap from the required tree or hook if wanting to use it in a greenhouse. The trap comes with 2 lures. The refill contains 2 replacement lures.

TLM1	1 Trap	£14.99
TLM2	1 Refill	£11.99

Scent Off Rabbit Repellent

A natural product designed to protect areas such as lawns from surface scratching, Scent Off Rabbit Repellent is the ideal repellent for organic gardens.

The repellent works by emitting an odour that animals associate with predator activity, naturally repelling them away from the area. Stimulating a fear-based response, it encourages rabbits to go elsewhere.

One pack can treat and protect an area up to 150m².

RRS1	£7.99
------	-------

Yellow Sticky Traps

Control insect pests including whitefly, thrips, leaf miners and greenfly in the greenhouse or conservatory. Double sided. Size: H:22 x W:10cm.

Code	Pack Size	Price
YS001	5	£3.75
YS002	10	£6.49
YS25	25	£13.49
YS003/50	50	£21.99

Mini Yellow Sticky Traps

Control insect pests in plant pots. Double sided pack of 10, 5 birds, 5 flowers. H:13 x W:6.5cm.

YSD10	£4.99
-------	-------

Whitefly Treatment

A pesticide free insect treatment based on seaweed extract that work by physical contact action and is particularly effective in controlling whitefly. Size: 500ml Makes five litres of spray.

WK1	£9.99
-----	-------

SB Plant Invigorator

A unique 3 in 1 pesticide mildewcide & foliar nutrient which is biodegradable, non-toxic and environmentally friendly. Controls a range of pests.

SBP1	500ml RTU Spray	£5.99
SBP2	500ml Concentrate	£19.49

Chafer Beetle Trap

Supplied with a powerful attractant which attracts adult chafer beetles to the trap. The beetles are also attracted by the vanes on the top of the trap. They fly into the vanes and drop down into the funnel trap beneath. The trap should be placed in lawn areas in May and hung 25 - 50cm above ground level.

Trap - Includes 1x Trap & 1x pheromone lure.
Refill - Includes 1x pheromone lure. 1 lure lasts for 6 weeks.

CBT	1 Trap	£19.99
CBTR	1 Refill	£9.99

Box Moth Trap

The box tree moth caterpillars feed on leaves causing defoliation and dieback. Early detection and control are essential as the webbing makes effective control difficult. 1 trap per 0.5 acres.

Trap - Includes 1x Trap & 4x pheromone lures.
Refill - Includes 4x pheromone lure. Use between March and October. Lures need to be changed every 5 weeks.

BMT	1 Trap	£24.99
BMTR	1 Refill	£12.99

Horse Chestnut Leaf Miner Trap

This trap works by using a species-specific pheromone that attracts the male Horse Chestnut Leaf Miner Moths to the trap. Hang one trap in each affected tree from April. The trap is reusable and can be used for many years. Replacement lures are sold in packs of 3; each lasting up to 6 weeks and should be replaced 2-3 times between April and August to catch as many lifespans of Pupae as possible.

Trap - Includes 1 trap and 3x pheromone lure
Refill - Includes 3 x pheromone lure. 1 lure lasts for six weeks.

HCHT1	1 Trap	£22.99
HCHT2	1 Refill	£13.99

Cabbage Collars

Deter cabbage root fly, repel slugs and snails, control weeds around the plant and conserve moisture. 12.7cm (5") in diameter. Made from black fabric impregnated with copper. Reusable. Place black side facing up.

Code	Pack Size	Price
CC006	25	£6.99
CC008	50	£12.99
CC008/100	100	£24.49

CATWatch

Trains even the most persistent feline visitor to stay out of your garden for good. Tested and approved by the RSPB. This product does not harm cats. Protects an area of 125m².

CW100 £53.99

Mains adaptor increases power output by 30%

PESTFree

A multi-frequency deterrent designed to keep unwanted pests out of your garden. Deters cats, dogs and foxes. Covers 88m². Only activates when a pest is present. Inaudible to humans and harmless to all species. Covers up to 88m².

PF100 £31.99

Mains adaptor increases power output by 20%

FOXWatch

Only uses the principles of animal behavioural response patterns to communicate the clear message or threat that the fox is not welcome. Please note, this product will also deter dogs. Covers up to 125m².

FW001 £53.95

Mains adaptor increases power output by 20%

CATFree

When the CATFree is triggered, the bursts of ultrasound results in the cat retreating from the protected area. Safe to use if you have dogs and rabbits. This deterrent works by detecting body heat and movement. Inaudible to humans and harmless to all species. Covers up to 88m².

CF001 £27.99

Mains adaptor increases power output by 20%

Mains Adapter

Increases volume of CATWatch and FOXWatch by up to 30%, and PESTFree, PESTFree plus, CATFree and pest controller by up to 20%. Comes with a 10m lead.

MA001 £19.99

Please note the above devices require Duracell batteries.

Grazers Cabbage White Butterflies & Caterpillars

Highly effective against damage from cabbage white butterflies, aphids and other pests. Completely safe to use on edible plants and is harmless to pets and wildlife. 750ml of spray treats 30m², 350ml concentrate makes 7 litres.

GCC1	750ml RTU Spray	£7.99
GCC4	350ml Concentrate	£11.49

Grazers Lily Beetle

Easy to use spray to coat the leaves, the beetles cannot tolerate the formula. It is effective against damage and strengthens and stimulates plant growth. Pet and wildlife friendly.

GLB1	750ml RTU Spray	£7.99
GLB2	350ml Concentrate	£11.49

Fly Trap

10m long fly roll trap with a 3D printed graphic on a easy to use roll. Easy to hang and move with a red string hanger. W:25cm x L:10m.

FR1 £15.99

Waspinator Twin Pack

Acts as a decoy just like a scarecrow and naturally repels wasps by mimicking an enemy wasp nest. Create a large wasp free zone with no maintenance and without harming the wasps. Pack of 2. 30cm deep with a diameter of 24cm. 1 Waspinator will protect a 15m radius.

WASP2 £12.99

Ant Killer Granules

Effectively control ants on paths and patios. Granules for both scattering and pouring. Scattering: 10-20g/m² on nests and trails. Pouring: 10g dissolved in 0.5 litres of water, per nest. Size: 500g.

ANKG1	Single	£7.99
ANKG1/1	Pack Size 2	£14.99

Superstrength Cat Repellent

Long-lasting odour masks territorial markings left by cats. As cats do not tolerate the foreign odours, the treated area is given up and avoided. Size: 500g. Sufficient to cover up to 200m².

CR200 £7.99

Grazers Rabbits, Pigeons, and Deer

Prevent damage caused by rabbits, pigeons and deer. Odourless to humans and safe for pets. Spray on fruit, vegetables, bedding plants, shrubs, lawns or ornamental plants.

Code	Size	Coverage	Price
GR300	750ml RTU Spray	30m ²	£7.99
GR100	375ml Concentrate	1000m ²	£11.99
GR200	750ml Concentrate	2000m ²	£19.99

Wasp Trap

Wasps are essential pollinators throughout the year but may become aggressive in late summer due to a lack of food. This trap effectively catches large quantities of wasps and hornets using a species-specific pheromone attractant.

Safe around children and pets, the trap contains no chemicals. Assemble following instructions, hang in a pest-populated area. Made from reusable plastic, traps can be emptied, cleaned, and reused by replacing the attractant.

Clean the trap by submerging it in a bucket of water to drown remaining wasps, reducing the risk of stings. Best used from July to early autumn for maximum trapping rates. 1-3 traps are suitable for a standard garden; larger gardens may need more traps. Trap size: H:18.5cm x Dia:12.5cm.

Package Includes:

Trap with bait, 1 trap and 1 attractant 100ml bottle

Pack of 2 traps, 2x wasp traps

WSPT10	Trap & Bait	£16.99
WSPT2	2x Traps (No Bait)	£16.99
VL100	Bait	£6.99

Clothes Moth Trap

Effectively control clothes moth with these pesticide free, odourless pheromone traps. The activities of the larvae cause damage to clothes and carpets made from natural fibres. Male moths are attracted to the pheromone and are trapped on the sticky surface preventing fertilisation.

CLM2	2 Traps	£5.49
CLM4	4 Traps	£9.99
CLM7	7 Traps	£16.99

Food Moth Trap

A highly effective pheromone trap, safe to use around food. The larvae of this moth can infest most dry foods. Male moths are attracted to the pheromone and are trapped on the sticky surface.

FM2	2 Traps	£3.49
FM4	4 Traps	£5.99

Spider Repeller

This child and pet safe spider repellent is safe and easy to use, it creates a natural barrier that deters spiders from entering your home. Made from oak tree extract and aloe vera. Ideal for homes, tents, caravans and garages. Size: 500ml.

SR1 £8.99

Complete House Mouse & Rat repeller

The Complete House Rat and Mice Repeller is an advanced pest control device designed to deter rodents from your property using a combination of ultrasonic and electromagnetic technologies.

The repeller emits ultrasonic waves, which are loud noises at high frequencies. In addition to ultrasonic waves, the device utilises electromagnetic fields already around the existing wiring in your home. It is suggested that these fields create an environment that discourages rodents from nesting.

IPR4 £23.99

Greenhouse Care & Propagation

Deep Rootainers

Rootainers offer the perfect start for nearly all plants. Ideal for plants those that are sensitive to disturbance and require deep root runs. Suitable for growing on seeds, seed-lings, plugs and cuttings.

Coir Brick 650g-Pack of 2

This coir has excellent water retention qualities. It is peat free, easy to handle and does not blow away. The coir bricks will expand to as much as three times its original size. It is made from renewable sources. 1 x brick makes 9L of coir.

CB650/2 £5.99

For cages see pages 17-24.

For flexible hoops see pages 39-42.

For aluminium hoops see pages 35-38.

Cedar Raised Beds

Our wooden raised beds provide the ideal growing space to 'Grow Your Own'. Perfect for fruit, vegetables and herb growing. Made from high-quality Cedar wood.

Each cedar board is 14.5cm high x 3.2cm thick and is planed for an attractive finish. Please note that as timber is a natural product and is susceptible to shrinkage/ swelling, all sizes are therefore nominal +/- 5mm. Sizes apply to external dimensions.

Please note: the wood is not treated.

Supplied with cedar boards, internal corner fixing posts, galvanised screws and full instructions. Homegrown British Cedar.

Eco Wood Treatment

A non-toxic safe wood stain preserver which will never fade or peel. Matures into a beautiful weathered aged look. Only needs one application and can be applied to bare wood, great for raised beds, wooden panels, and decking.

Composting

Tumbling Composters

The tumbling/rotating composters contain a mechanism with rods/fins which mixes and breaks up larger clusters of matter and provide aeration which then activate and speed up the decomposing process. Such composters are able to reach a temperature of more than 60°C. A rotating bin can cut months from the composting process and you can create compost in weeks. The sealed chambers help preserve the heat produced from the compost.

105L Tumbling Composter

Size: H:84cm (2'9") x W:61 (2'1") x D:60cm (1'11")
(barrel size 61cm x 61cm).

WB13	£249.99
------	---------

Water Butt Tap

This water butt tap fits most water butts, it can connect to soaker hose or standard 13mm hose pipe.

SH009	£3.99
-------	-------

Irrigatia Automatic Watering Systems

No need for electricity or a tap. You can water your greenhouse, vertical gardens & green walls, hanging baskets, raised beds, pots, allotments & even your holiday watering. Just drop the inlet filter into the water butt, position the control unit somewhere sunny, switch on and leave. It waters every 3 hours - now the clever bit - it automatically waters for longer when sunny - plants love it!

Please Note: The Irrigatia 12 dripper extension kit, Irrigatia seep hose extension kit, and Irrigatia tube extension kit 30m are compatible with both the C-12 and C-24.

C-24: Comes with 12 drippers as standard. Purchase with an extension kit to maximise the power of the unit to reach max capacity.

Max capacity for C-12 shown above.

Pots & Planters

Potato Grow Pots

The potato grow pots are a unique and easy way to grow potatoes in your own garden. These pots are designed specifically for growing potatoes and allow you to get a bountiful harvest in a small space. Two sizes available. Harvest to crop with out upturning the plant.

PGP30	Dia:295 x H:236mm	£8.99
PGP40	Dia:392 x H:316mm	£11.99

Burnt Wood Barrel

The perfect planter for adding a rustic ambience to an outdoor space. Made from wood with a burnt effect finish and black barrel rings. It's a charming way to present any potted plant.

BWBS	Small - H:17 x Dia:30cm	£14.99
BWBM	Medium - H:20 x Dia:38cm	£17.99
BWBL	Large - H:23 x Dia:45cm	£19.99

Pot Toppers

A decorative and functional gardening accessory designed to enhance the appearance of your potted plants. Made from natural materials.

Code	Colour	Weight	Price
PEB/B	Black	2.2kg	£6.99
PEB/W	White	2.2kg	£6.99
PEB/M	Mixed	1.8kg	£6.99

Square Base Dirt Pot

The Square Base Dirt Pot is the ideal solution to stop your plants becoming pot bound, with fabric that allows air to pass through, aerating plant roots and 'air pruning' them when they hit the sides/ bottom of the pot. Due to its breathable nature, it is important to keep the media moist.

If the media dries out, then the fabric can come away from the media. This then leads to a space opening between the media and the fabric where water can drop down the sides and can cause a dehydrated plant.

DPOT17	Small - H:25 x W:27 x L:27cm	£5.99
DPOT26	Medium - H:27 x W:30 x L:30cm	£7.49
DPOT37	Large - H:33 x W:35 x L:35cm	£8.99

Houseplant Bug Control 500ml

Eco-friendly and safe for use on both edible and ornamental indoor plants, Houseplant Bug Control is a ready-to-use spray that provides effective pest control. It targets a range of common indoor pests.

BUGC	£5.99
------	-------

Plant Support Poles Pack of 2

Made from the fibres of coconuts, these coir plant poles are an alternative to traditional wooden growing supports. H:40 x Dia:5cm.

CCFP	£6.99
------	-------

Window Box Table Top Planter

The sonata table top trough planter is part of a multi-award winning collection of recycled planters which have been manufactured for all seasons.

Dimensions: H:15 x W:60 x D:15cm
Internal Dimensions: H:9 x W:58 x D:9.5cm.

SON5/S	£29.99
--------	--------

Tomato Growpots™

The outer trough holds 4 pints of water or feed which gradually seeps into the compost taking a constant supply directly to the plant root. Made from strong plastic, the Growpots measure 28cm in diameter (outside edge of pot) and 24cm at bottom. 18cm in height, and will last for many seasons.

Using the watering spikes to cut into the growbag, three can sit neatly into a bag of compost and are excellent for many crops, in particular, tomatoes, aubergines and chillies.

Black Growpots made from recycled plastic.

Cast Iron Pot Caddy

This Planter caddy is manufactured from cast iron, to be durable and weather resistant, and the classic swivel effect is also designed to reduce staining to patios from water residue, reducing the risk of frost damage by raising the planter above the ground, increasing drainage and encouraging plants to avoid becoming water-logged. The gridded pattern stabilises the caddy, allowing various sized potted plants to be placed on the caddy, making it a versatile option for a few small pots or a placement for a medium-larger pot.
